BENEFITS

- ✓ Associated with enhanced tissue repair and regeneration
- ✓ Exhibits anti-inflammatory properties in various tissues and supports the natural healing process
- ✓ May contribute to cardiovascular health by promoting healthy blood vessels, circulation, and heart tissue
- ✓ Plays a role in modulating the immune system, aiding in the regulation of immune responses
- ✓ Supports improved muscle repair, making it a valuable supplement for athletes
- ✓ May have neuroprotective effects, potentially supporting neurological health and function

Thymosin beta 4 Fragment (TB4 Frag) has been shown to be an excellent anti-inflammatory peptide. Exhibits wound healing, and antimicrobial properties, and limits scar formation.
